

23 September 2009

Mr M Reid  
Director-General  
Department of Health  
GPO Box 48  
BRISBANE QLD 4001

Dear Mr Reid,

QPSU members employed pursuant to the *Health Practitioners (Queensland Health) Certified Agreement (No. 1) 2007 (HP EB1)* are concerned with the lack of progress of the HP Phase 2 evaluation process.

I write to seek an urgent meeting with you prior to 30 September 2009 to discuss our concerns.

As you are aware there was a joint Queensland Health/Unions video-broadcast to employees across the state where Deputy Director General Wilson indicated that the HP Phase 2 evaluation would be completed by 30 September 2009.

As per the certified agreement, this process was initially proposed to be completed by 30 September 2008 – twelve months ago.

Any possibility that the current deadline, committed to by Deputy Director General Wilson on behalf of Queensland Health, will not be met will have the potential to undermine all the goodwill that this agreement was meant to achieve amongst a significant area of Queensland Health's workforce.

To arrange a time to meet please contact me on 30176147.

Yours Sincerely

A handwritten signature in black ink, appearing to read 'Alex Scott', with a stylized flourish at the end.

Alex Scott  
General Secretary
